

User Guidelines for UCSI VPN

For Windows.

Step 1

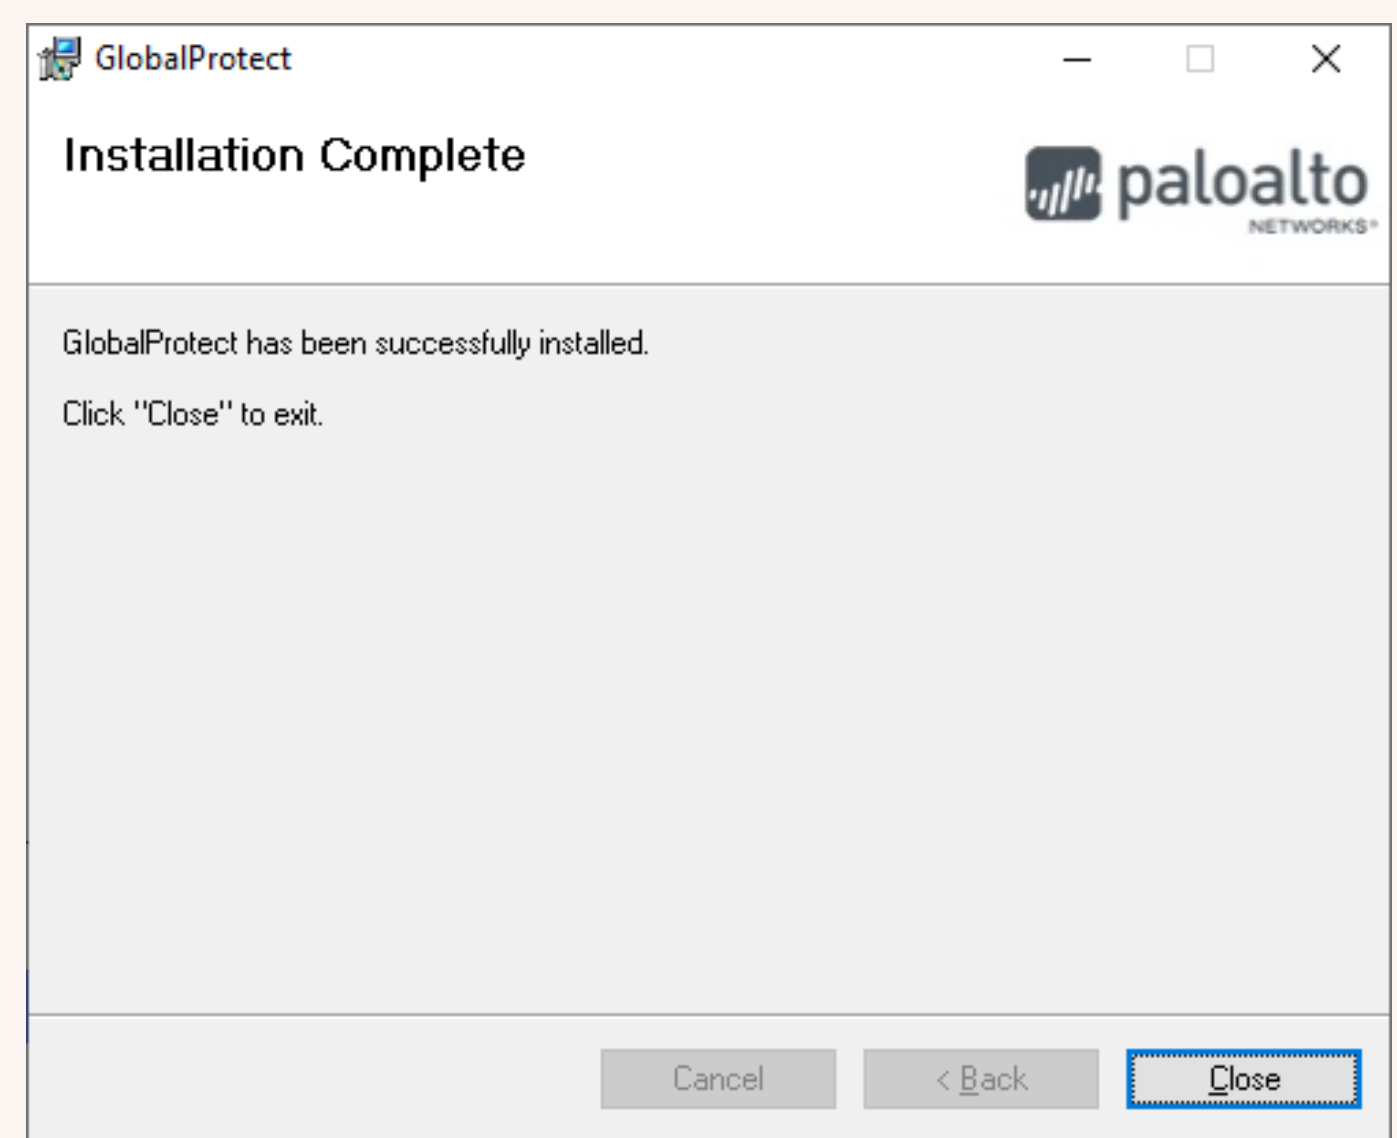

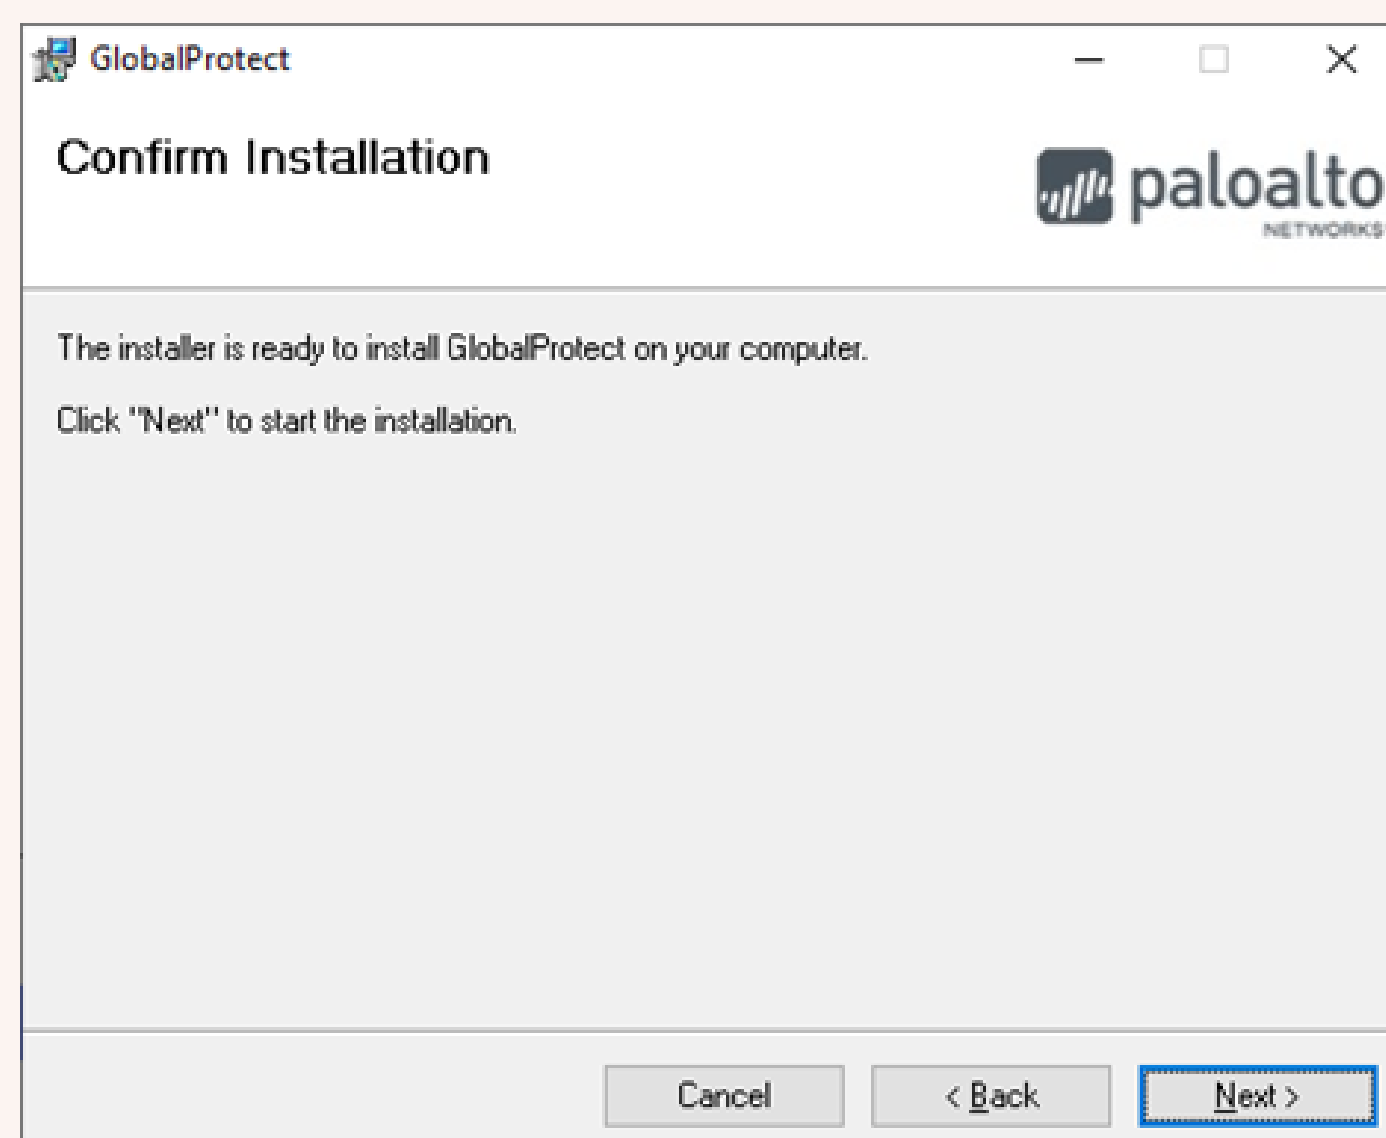

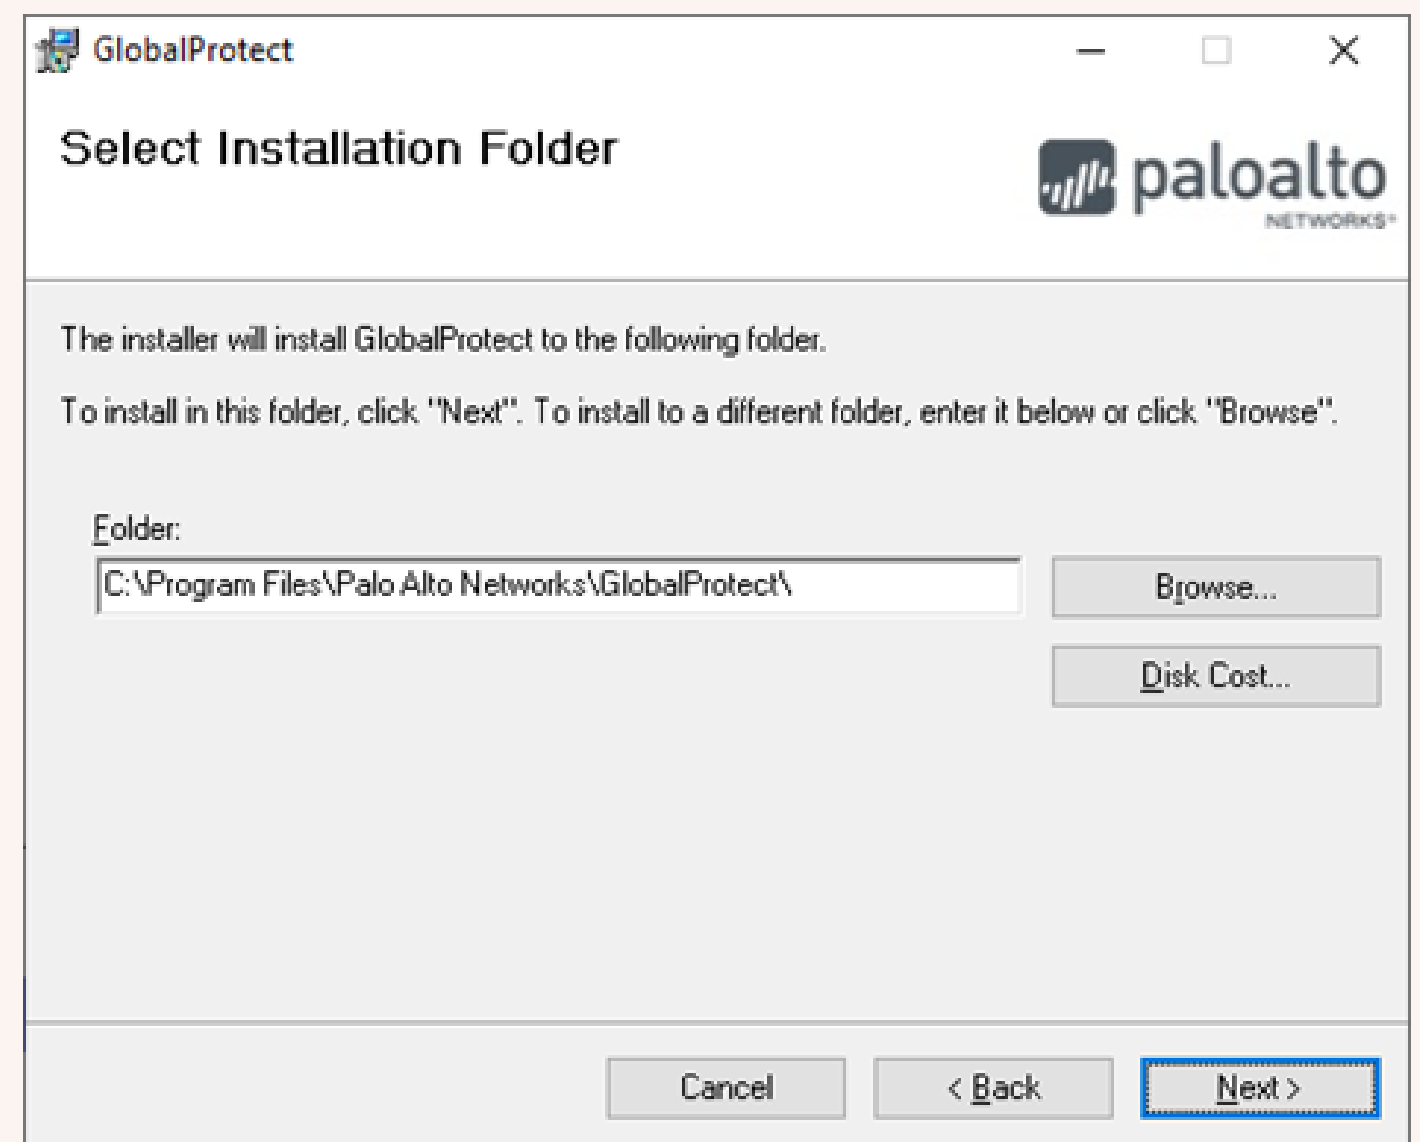

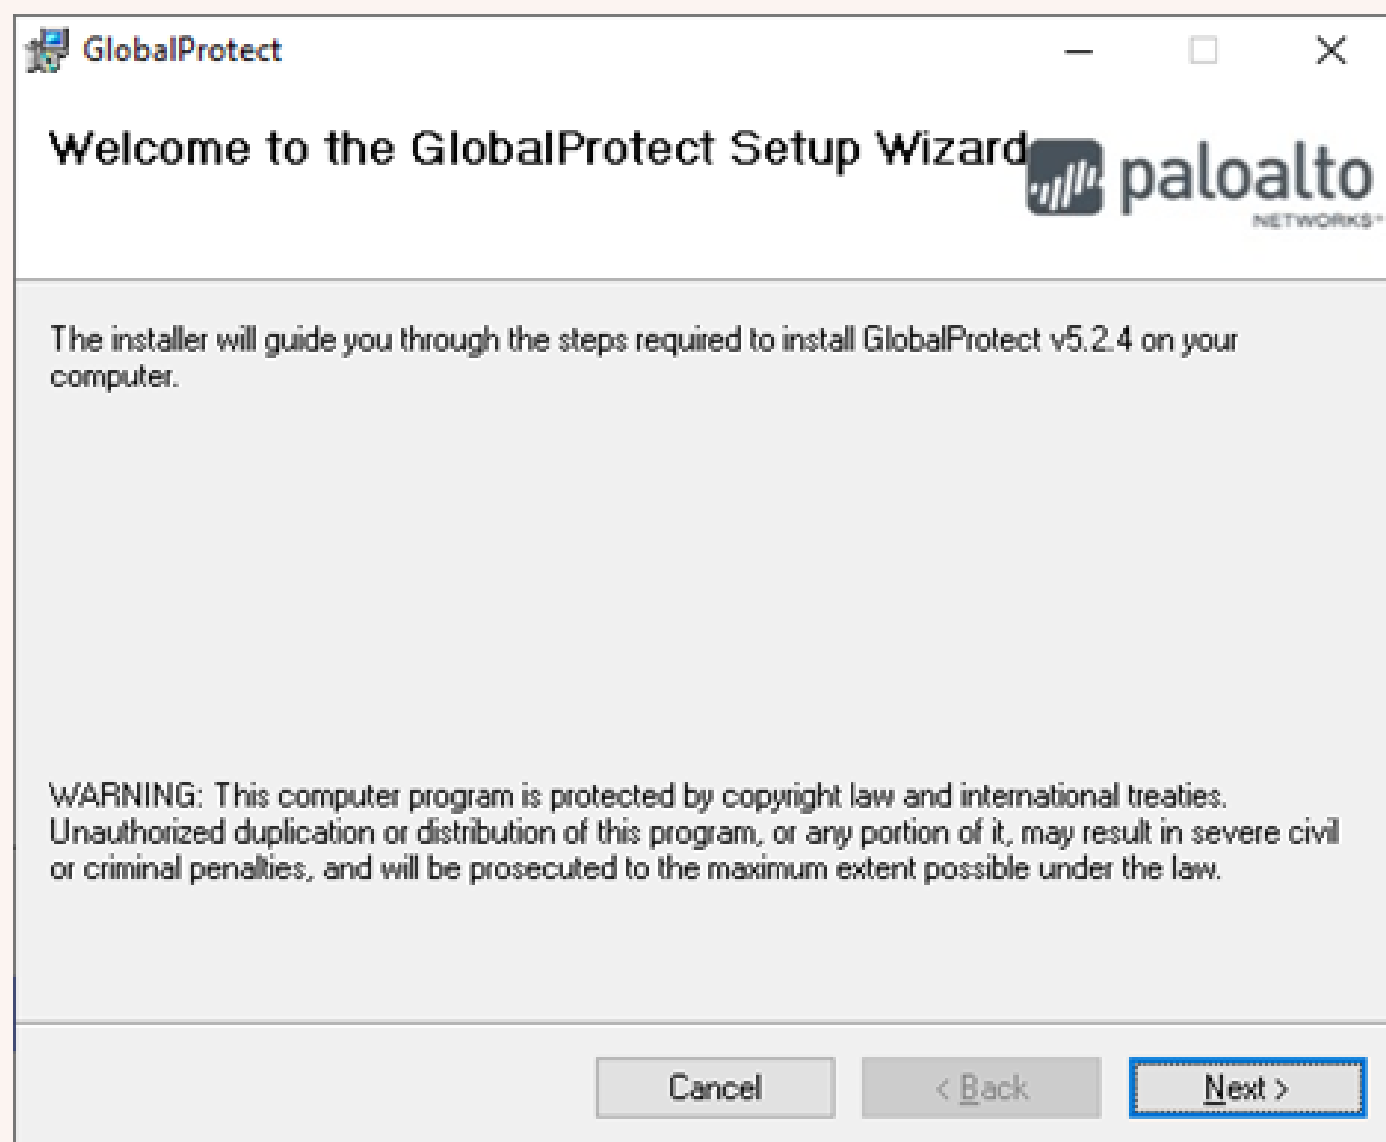

- Please proceed to <http://lnnk.in/aYdY>
- Please download and install according to your computer operating system version.

Name	Modified	Modified By	+ Add column
GP_5.2.4_MAC_OS.pkg	March 9	Micheal Thow'at Chet	
GP_5.2.4_WINDOW_32BIT.msi	March 9	Micheal Thow'at Chet	
GP_5.2.4_WINDOW_64BIT.msi	March 9	Micheal Thow'at Chet	

Step 2

Please follow these instructions :

User Guidelines for UCSI VPN

For Windows.

LIBRARY

Step 3

Please enter the server address "access.ucsigroup.com.my" and click "Connect".

A screenshot of the GlobalProtect VPN client interface. The window title is "GlobalProtect". It features a globe icon with a shield and checkmark. The text reads "Welcome to GlobalProtect" and "Please enter your portal address". Below this is a text input field containing "access.ucsigroup.com.my" and a blue "Connect" button.

GlobalProtect

Welcome to GlobalProtect

Please enter your portal address

Connect

Step 4

Please enter the login ID (Student or Staff ID) and password. Then click "Sign In".

A screenshot of the GlobalProtect VPN client interface. The window title is "GlobalProtect". It features the text "Sign In" and "Enter login credentials". Below this is a "Portal" label with the address "access.ucsigroup.com.my". There are two input fields: the first contains the login ID "11277" and the second contains a masked password represented by ten dots. At the bottom are "Sign In" and "Cancel" buttons.
